

tapflo

your reliable pumpchoice

With experience from industrial fluid handling and pump manufacture since 1970, we know what you as a customer require from an industrial pump. Ever since we started our manufacture of air operated diaphragm pumps, we have always had our winning concept in mind: to create pumps for reliable duty and with a minimal number of components enabling easy maintenance. We are always keenly aware of new requirements and ideas from our customers. The products are therefore always in continuous progress with improved detail solutions, new materials and further accessories.

Tapflo quality

The Tapflo pump is usually an essential part in the process with hazardous fluids. We always strive to supply the safest and most environmental friendly solution for these fluids. As a part of our safety thinking, we are in the frontline following important standards, guidelines and directives. Many of our products comply with the EC ATEX directive for equipment in explosion hazardous environments. All our pumps are of course CE marked and followed by our comprehensive instruction manuals. Tapflo is an ISO 9001:2001 certified company. The EHEDG certification of our aseptic diaphragm pump was achieved in 2009.

The history of Tapflo

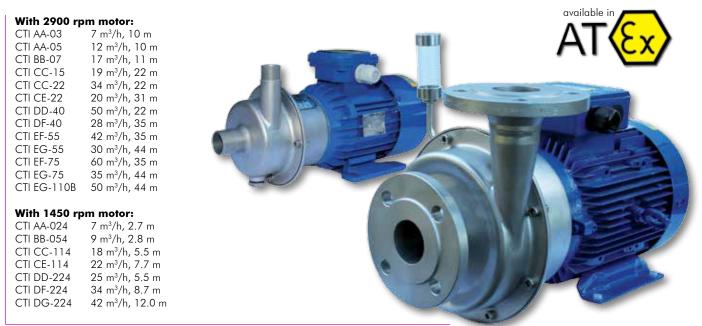

Tapflo was founded in Kungälv (north of Gothenburg), Sweden 1985 and has since then been working with design and manufacture of air operated diaphragm pumps. The product range has grown from a few plastic models, to complete PE & PTFE, metal and sanitary series and lately also with complete ranges of centrifugal pumps. Tapflo has now established sales offices in 20 countries and independent distributors in another 30 countries – spare parts and pumps are available worldwide.

The CT pumps are open or semi open single stage centrifugal pumps. They are manufactured in high finish and mechanical strong material stainless steel AISI 316L. The pump range meets the demands from a variety of today's industry. After all, CT is still available at a very appealing price level.

CTI – industrial series

The industrial series CTI is designed with glass blasted pump casing. A variety of connection types, mechanical seal options and other executions are available to satisfy most type of industrial duties.

CTH — hygienic series The hygienic series CTH is supplied with electro polished pump casing and internals. This series is specially dedicated for hygienic duties in food, beverage and pharmaceutical industries, where clean- and drain-ability are important keys.

With 2900 rpm motor:

7 m³/h, 10 m						
12 m³/h, 10 m						
17 m³/h, 11 m						
19 m³/h, 22 m						
34 m³/h, 22 m						
20 m³/h, 31 m						
50 m³/h, 22 m						
28 m³/h, 35 m						
42 m³/h, 35 m						
30 m³/h, 44 m						
60 m³/h, 35 m						
35 m³/h, 44 m						
50 m³/h, 44 m						
With 1450 rpm motor:						
7 m³/h, 2.7 m						

CITIAA-024	/m°/n,∠./m
CTH BB-054	9 m³/h, 2.8 m
CTH CC-114	18 m³/h, 5.5 m
CTH CE-114	22 m³/h, 7.7 m
CTH DD-224	25 m³/h, 5.5 m
CTH DF-224	34 m³/h, 8.7 m
CTH DG-224	42 m³/h, 12.0 m

Wide range of applications

The CT range has a very wide range of applications – from transfer of water, to pumping of mild chemicals. Now with the hygienic series CTH, the number of applications within food, beverage and pharmaceutical industries has increased dramatically.

Food & beverage (CTH series)

Transfer of various ingredients and products like edible oil, flavor, alcohol, dairy products and juice. With heating jacket version there are further possibilities like pumping margarine, paraffin and chocolate. There are also many auxiliary applications like transfer of CIP liquids, detergents and water.

Chemical & pharma (CTI & CTH series)

Transfer of a variety of mild chemicals and solvents.

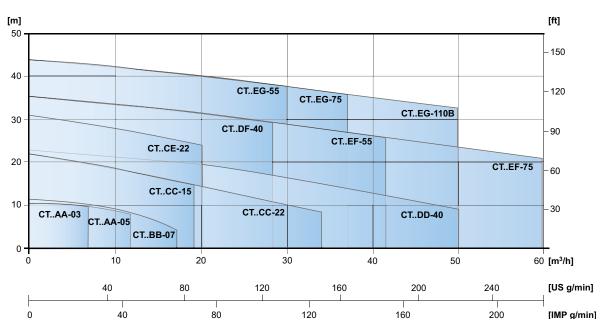

Mechanic industries (CTI series)

Handling of oil, lubricants, coolants and detergents etc.

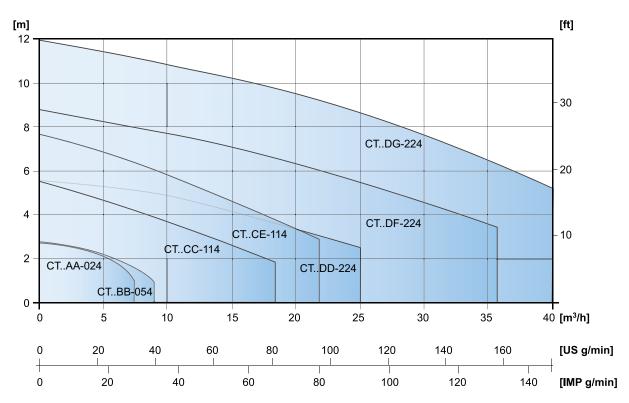

Performance curves

The performance curves are based on water at 20°C. Other circumstances will affect the performance. These curves are only for first selection, contact us for detailed curves with required power, NPSH etc.

With 2900 rpm motor

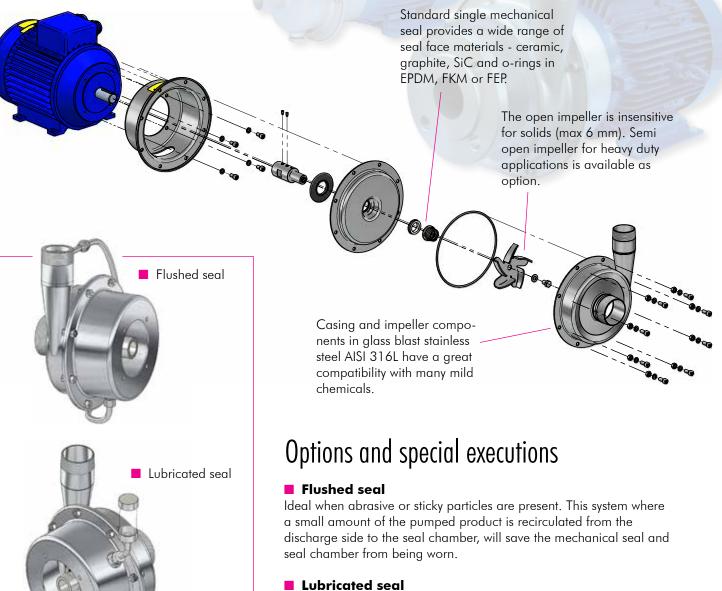

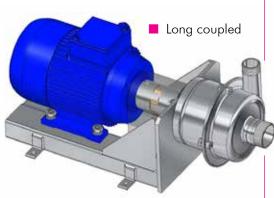

With 1450 rpm motor

CTI - industrial series

A very simple and ingenious design, with only 19 different components grants for easy and quick maintenance, in many cases completely maintenance free. The effect is very short down time and extremely low maintenance costs.

A great option where there is a potential risk of dry running, or where the product tends to solidify or crystallize. An oil cup is connected to the mechanical seal chamber.

Long coupled execution

The perfect solution when pumping hot products like oil at temperatures up to 180°C. Complete pump unit mounted on baseplate, with coupling and guard.

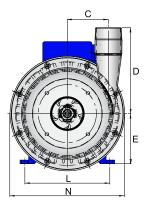

Flanged connections

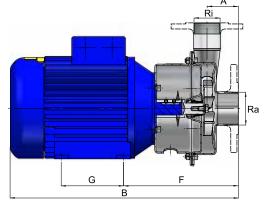

Instead of the standard BSP threaded connections, you can order all CTI pumps with flanged connections according to DIN (2633) or ANSI 150.

Draining device

Plug at the bottom of the pump casing allows draining.

CTI - technical data

Materials, data and limits

Casing	Stainless steel AISI 316L glass blast
Impeller	Stainless steel AISI 316L glass blast, open (standard) or optional semi open type
Mechanical seal	Single ceramic/graphite (standard), SiC/SiC or SiC/graphite, optional with oil lube or flushed
O-rings	EPDM (standard), FKM, FEP/silicone or NBR
Motor	IP55, IEC frame B3/B14 (B3 on long coupled version). Available with ATEX cat 2 or 3, Eex e or Eex d motor
Max pressure	10 bar (PN10)
Temperature	max 90°C, max 180°C for long coupled version
Viscosity	max ~200 cSt
Particles	max diameter 6 mm (with standard open impeller), bigger if soft particles

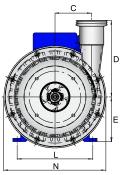

Changes reserved without notice

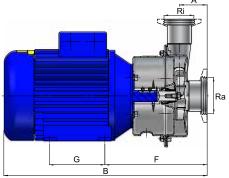

CTH - hygienic series

The CTH series is dedicated for hygienic duties mainly within food, beverage and pharmaceutical industries. With casing and impeller in <0.8 Ra electro polished stainless steel AISI 316L, draining possibilites and hygienic shroud option it meets the demands of clean ability and high finish. Elastomers are approved according to FDA article177.2600.

Ordering a CT pump

CTI and CTH series are available in standard versions from stock as well as special versions to suit any requirements. When ordering, please follow below example.

1. CT = Tapflo centrifugal pump

2. Pump version

- = Industrial version
- H = Hygienic version

3. Casing size

Motor flange diameter / motor IEC size

- A = 105 mm / 71
- B = 120 mm / 80
- C = 140 mm / 90
- D = 160 mm / 100 or 112
- E = 200 mm / 132

4. Impeller size

- A = 90 mm
- B = 98 mm
- C = 125 mm
- D = 130 mm
- E = 135 mm
- F = 155 mm
- G = 180 mm

5. Pump options

1. Mechanical seal

- Blank* = ceramic/graphite/EPDM (FDA on CTH)
- 1CGV = ceramic/graphite/FKM (CTI only)
- 1CGF = ceramic/graphite/FEP (FDA)
- 1CGN = ceramic/graphite/NBR (CTI only)
- 1SSE = SiC/SiC/EPDM (FDA on CTH)
- 1SSV = SiC/SiC/FKM (CTI only)
- 1SSF = SiC/SiC/FEP (FDA)
- 1SSN = SiC/SiC/NBR (CTI only)
- 1SGE = SiC/graphite/EPDM (FDA on CTH)
- 1SGV = SiC/graphite/FKM (CTI only)
- 1SGF = SiC/graphite/FEP (FDA)
- 1SGN = SiC/graphite/NBR (CTI only)

- 3. Connection options
- $Blank^* = Thread BSP on CTI$
 - Thread DIN 11851 on CTH
- 3A = Flanged ANSI 150 (CTI only)
- 3F = Flanged DIN 2633, PN10/16 (CTI only)
- 3C = Clamp ISO 2852 (CTH only)
- 3T = Clamp DIN 32676 (CTH only)
- 3S = Thread SMS (CTH only)
- 3R = Thread RJT (CTH only)
- 4. Special excecutions
- 4J = Heating jacket
- 4F = Flushed seal
- 4Z = Oil lubricated seal
- 4H = Semi open heavy duty impeller
- 4K = Drain plug
- 4P05 = Polished to Ra < 0.5 (CTH only)

6. Motor power / IEC motor size

- 2900 rpm motors (2-pole):
 - 03 = 0.37 kW / 71
- 05 = 0.55 kW / 71
- 07 = 0.75 kW / 80
- 15 = 1.5 kW / 90
- 22 = 2.2 kW / 90
- 40 = 4.0 kW / 112
- 55 = 5.5 kW / 132
- 75 = 7.5 kW / 132
- $110 = 11.0 \text{ kW} / 160^{**}$

1450 rpm motors (4-pole):

- 024 = 0.25 kW / 71
- 054 = 0.55 kW / 80
- 114 = 1.1 kW / 90
- 224 = 2.2 kW / 100

7. Motor options

- M = Hygienic motor shroud (CTH only)
- B = Long coupled pump w. base plate/coupling
- X2d = Eex d IIB T4 motor
- X2e = Eex e IIB T3 motor
- P = Single phase motor
- T = Motor with PTC thermistor

* = standard excecution

** = available in long coupled version only

Other Tapflo products

Tapflo is today one of the leading European manufacturers of air operated diaphragm pumps. With comprehensive ranges in metals and plastics, the diaphragm pumps are the core of Tapflo. The portfolio is now also widened with magdrive centrifugal pumps, vertical centrifugal pumps and filter units.

Air operated diaphragm pumps

PE & PFTE pumps

Pumps made of polyethylene (PE) or virgin PTFE- plastics are suitable for handling almost any kind of liquid.

Metal pumps

Available in aluminium, cast iron, stainless steel, Hastelloy and PTFE-coated aluminium.

Sanitary pumps

Pumps particularly designed to meet the requirements of the food, beverage, pharmaceutical and cosmetic industries.

Pharamceutical pumps

This series is produced to serve the biotechand pharmaceutical industries in numerous applications.

EHEDG aseptic pumps

Our new aseptic series for sterile applications in primarily the pharmaceuticals, bio technology and foodstuffs industries.

Magdrive centrifugal pumps

Vertical centrifugal pumps
